## **1. Foreword**

The Centre of Children's Nurse Education (CCNE) is pleased to present its directory of programmes for 2026. The CCNE is located in Children's Health Ireland (CHI). The CCNE develops and delivers continuing education, training and professional development programmes across CHI (CHI at Crumlin, Temple Street, Tallaght, Connolly and the new National Children's Hospital Ireland) and nationally. The Vision of the CCNE is to lead continuing education and continuous professional development to meet the ever-changing needs of children and their families. The CCNE Strategic Plan (2023) presents the strategic objectives for the Centre of Children's Nurse Education (CCNE) for the period of 2023 – 2028.

All relevant continuing professional education and training programmes for nurses, provided by the CCNE, have NMBI Post Registration Category 1 Approval or are accredited with a higher-level institution. Programmes are open to all registered nurses and other health care professionals who care for children healthcare needs across the settings.

The CCNE is governed by a Board of Management, includes representatives from CHI and Nursing & Midwifery Planning and Development Units. The CCNE also collaborates with the Centres of Nursing and Midwifery Education (CNMEs) nationally in the delivery of national initiatives locally to staff. The CCNE continues to support the work streams involved with the Office of the Nursing and Midwifery Services Director (ONMSD), the National Clinical Care Programmes, including the National Clinical Programme for Paediatrics and Neonatology, the Children's Hospital Group (CHG) and Leading the Way A National Strategy for the Future of Children's Nursing in Ireland 2021-2031.

Centre of Children's Nurse Education Team

This edition revised and updated 2025 – first published 2011

## **2. Philosophy of the CCNE**

Children's nursing exists within a rapidly changing healthcare setting, where Registered Nurses must deliver quality care that is appropriate, safe, effective and efficient, thereby enhancing the outcomes for the child and family. Nurses need to constantly develop their knowledge, skills, attitudes and values to respond to new, evolving and enhanced nursing practice across all children's healthcare settings. The CCNE aspires to facilitate nurses (and appropriate support staff as required) with this process, by providing programmes that are relevant, based on best evidence and responsive to current and emerging children's healthcare needs.

The CCNE acknowledges that every nurse is responsible for their own life-long learning and in the identification of their individual learning needs. Each nurse has a unique learning style and the CCNE aims to provide an environment that encourages intellectual curiosity, creativity and self-directed learning for each nurse enhanced by active participation in learning and flexible teaching methods.

The CCNE values the wealth of knowledge and experience, both personal and professional that nurses as adult learners bring to the education setting. It endeavours to promote collaborative learning with the educator facilitating the sharing of knowledge and skills thus advancing deeper learning and furthering the development of reflection, analysis, critical thinking, problem-solving and competence.

The CCNE believes that continuous evaluation of the effectiveness of programmes is an essential quality mechanism to ensure delivery of education/training programmes that will ultimately benefit both the child and their family.

### **3. Procedure for Enrolment in Programmes**

The CCNE uses a Classroom Management System (CMS) to enrol participants in a number of programmes. The CMS allows the applicant to enrol online through HSEland - <https://www.hseland.ie//>

Please note that where programme bookings are automated and processed through the CMS, paper applications, phone or email bookings will no longer be accepted. Applicants will be responsible for booking directly on to their desired programme and Line Managers/Educators will no longer be able to book on behalf of their staff. Further information and instructions on how to access and enrol for programmes through the CMS are below:

#### **CLASSROOM MANAGEMENT SYSTEM (CMS)**

**The CMS allows you to:**

- Access the catalogue of CCNE programmes
- Review programmes: content, dates and locations
- Express interest in upcoming programmes
- Request enrolment in programmes
- Access programme resources
- Access your individual 'Learning Record' and programme certificates. This will update automatically as you complete programmes.

#### **Enrolling in Programmes**

It is essential to request enrolment in a programme in advance of attendance.

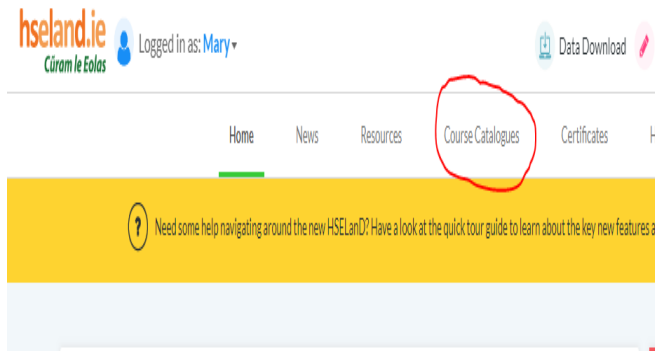

#### **For technical difficulty**

Email: [cms.helpdesk@childrenshealthireland.ie](mailto:cms.helpdesk@childrenshealthireland.ie)

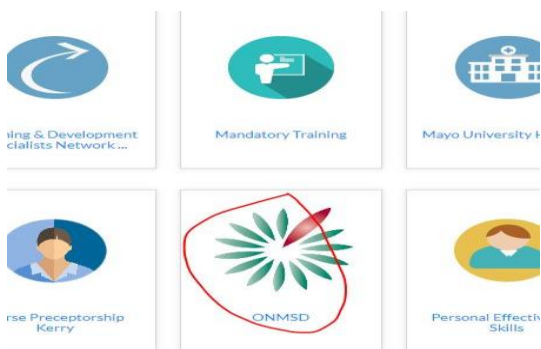

## How to Access the CMS

### How to access the CMS for CHI Staff

1. Login to <https://www.hseland.ie> and register/update your profile if necessary
2. Click on '**Course Catalogues**', see image below

3. Click on the ONMSD icon, see image below

4. Click on the CCNE icon (Children's Health Ireland), see image below

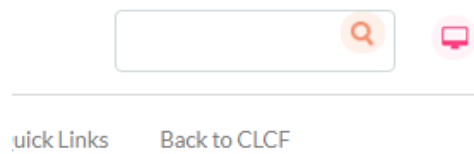

5. Click on the CCNE icon (Staff of CHI), see image below

6. Finally, click on the CCNE icon of the hospital where you work

7. You can search in the list of programmes or by using the search bar, see image below

8. Once you have reviewed and selected your programme of interest, click

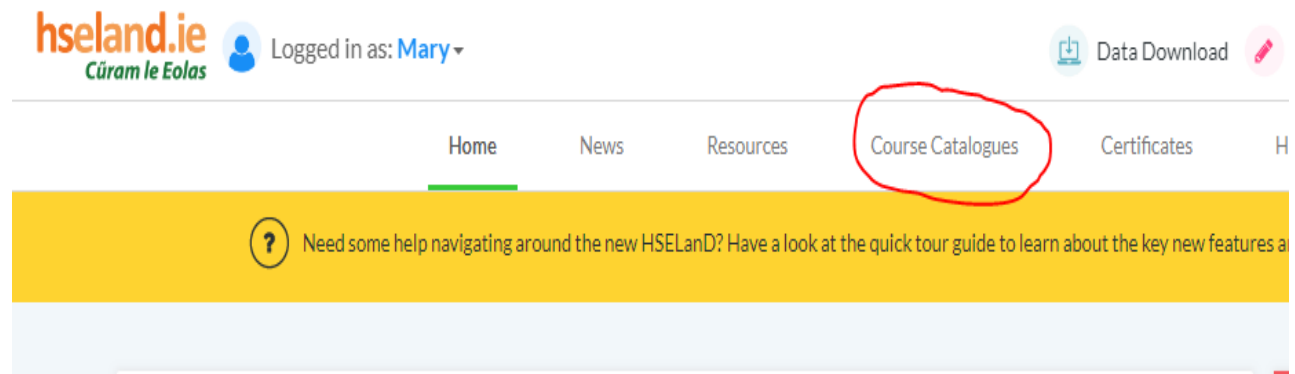

Enrol

You will then be brought to the **Enrolment Approval** page. Initial enrolment approval is required before your request can proceed. Therefore, it is important that you complete all fields and provide the supporting information in relation to your request. Once you '**Submit Request**' your application will go forward for review and you will be notified in due course as to the outcome of your request.

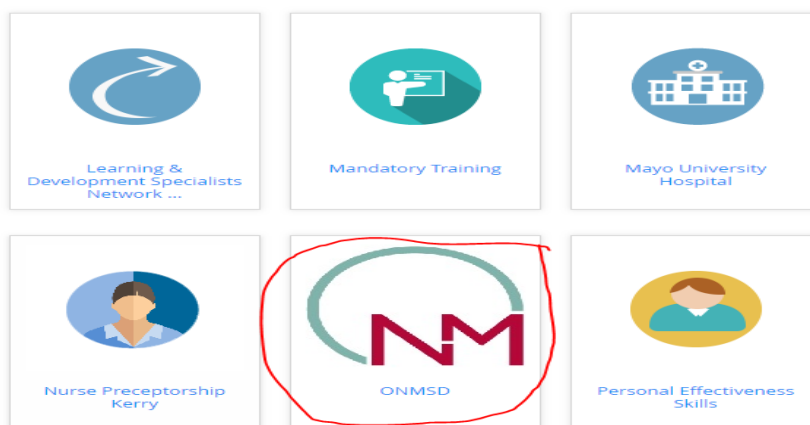

## Access to the CMS for Registered Nurses, Registered Midwives and Health and Social Care Professionals:

1. Login to <https://www.hseland.ie> and register/update your profile if necessary
2. Click on '**Course Catalogues**', see image below

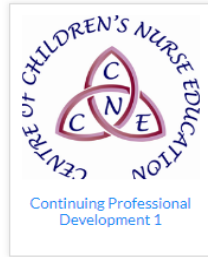

3. Click on the **ONMSD** icon, see image below

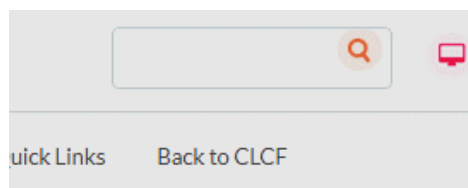

4. Click on the **CCNE Children's Health Ireland** icon, see image below

5. Click on the **CCNE Continuing Professional Development 1** icon, see image below

6. You can then review the list of programmes or 'search' for your programme by using the search bar, see image below

7. Once you have reviewed and selected your programme of interest, click

**Enrol**

You will then be brought to the **Enrolment Approval** page. Initial enrolment approval is required before your request can proceed. Therefore, it is important that you complete all fields and provide the supporting information in relation to your request. Once you '**Submit Request**' your application will go forward for 'review' and you will be notified in due course as to the outcome of your request.

### **Access to the CMS for those working in Schools**

Please email [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie) with the following information:

1. Programme of interest
2. Place of employment
3. Job title
4. Contact details (email and phone)

Instructions on how to access and enrol in programmes through the CMS will be forwarded to you on receipt of the above information.

### **Enquiries / Requests for further information**

Enquiries are addressed by the respective programme coordinator / administrator in the relevant hospital and where necessary, Director of the CCNE. Applicants should refer to the specific programme of interest for further details for booking procedures and direct all enquiries to the contact for that particular programme. Contact details are included in each programme outline in the Programme Directory and online in the Course Catalogue (<https://www.hseland.ie//>)

### **Confirmation of Booking**

Applicants will receive confirmation of their enrolment via the CMS, along with the location, time and relevant pre-course requirements/documentation relevant to that programme.

### **Cancellation of Programme by Provider**

All places are subject to availability at the time of booking. A quorum of applicants must be enrolled in a programme for it to progress. Should a programme be cancelled for any reason, applicants will be notified in advance and details of any rescheduling arrangements will be provided.

### **Cancellation of Booking by Applicant**

Applicants wishing to cancel their booking must withdraw from the programme through the CMS. This should be done, giving as much notice as possible, prior to the programme commencing. This will enable another applicant from the waiting list to avail of the place.

**Note:** Dates, times and locations for Continuing Professional Education programmes are subject to change.

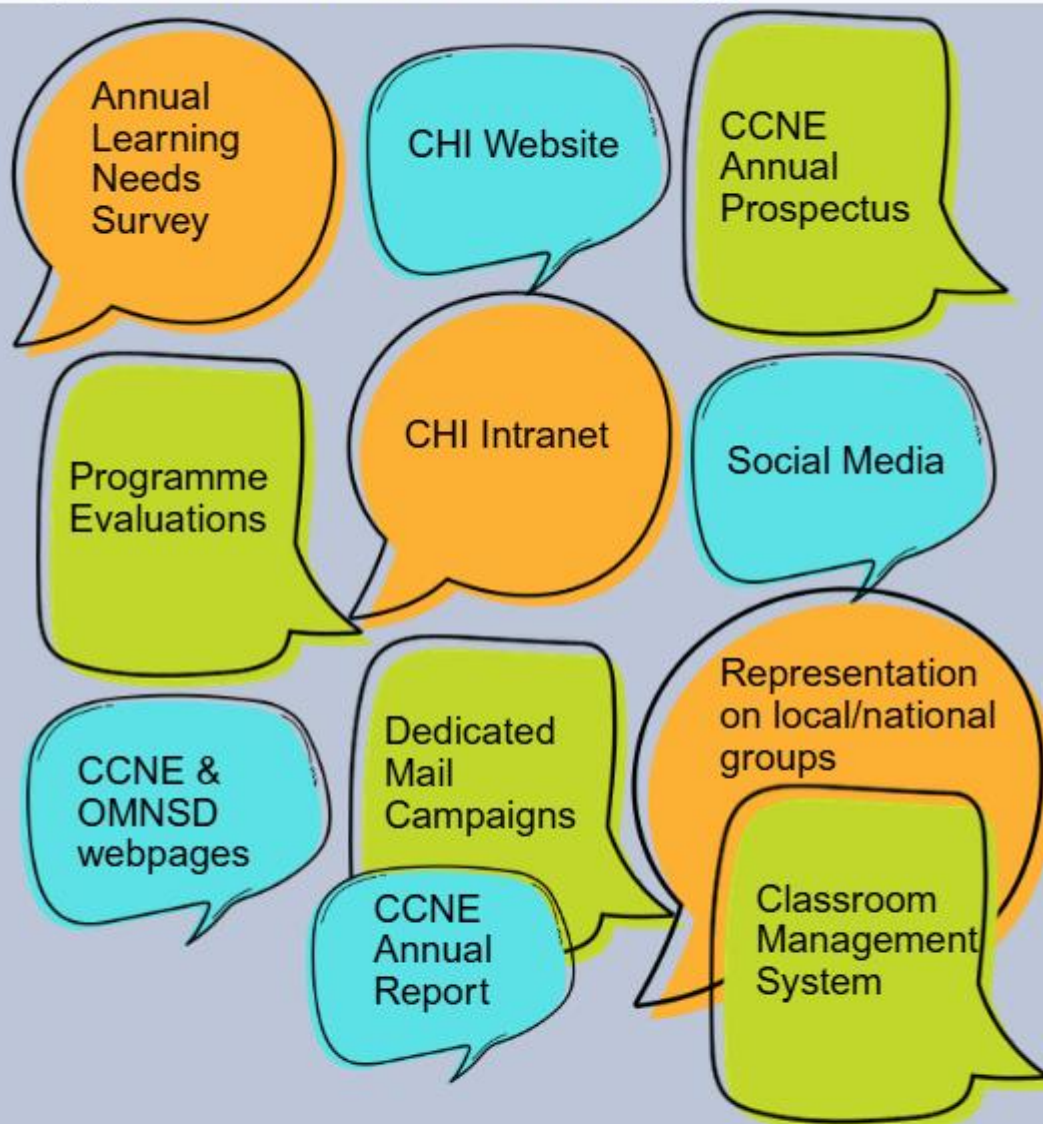

#### **4. Disclaimer for the Provision of Education/Training by the Centre of Children's Nurse Education (CCNE)**

Attendance and/or participation in continuous education programmes which are provided by, or on behalf of the CCNE are subject to the following terms and conditions:

1. Continuous Education Programmes are developed solely for the purposes of the CCNE's requirements in the interests of protecting and improving the health of the public in respect of the knowledge and training of nurses, midwives and other employees of a healthcare provider who are engaged in a healthcare environment (whether public and/or private).
2. In light of these purposes, programmes are intended to provide educational information to aid and augment an understanding of the theoretical subject matter presented and/or the practical application of certain skills and competencies.
3. It is the individual responsibility of each practitioner to assess and maintain their own competence in respect of any situation and to assess the limitations of their competence. Programmes are not intended to affect, interfere with or limit a person's individual responsibility to practice safely and effectively within their scope of practice and in accordance with any local policies, guidelines and/or protocols which may exist.
4. The CCNE shall have no liability, whether in (a) contract, (b) tort, (c) statute or (d) otherwise, for any injury, loss, damage or claim arising out of, or in connection with, any person's attendance and/or participation in this programme, including but not limited to the subject matter thereof and/or arising out of the use of any handbooks, guidance notes, other documentation, oral presentations/demonstrations, web-based learning tools or any other instruction or materials provided as part of this course (the "Materials"), howsoever arising.
5. Any Materials provided by the CCNE as part of this programme are provided for information and guidance purposes only. The CCNE makes no representation, assurance, warranty or guarantee of any kind whatsoever in relation to the Materials. The provision of the Materials is without prejudice to the obligation of persons attending and/or participating in this programme to continually develop themselves as professionals, where applicable.
6. These terms and conditions are without prejudice to the operation of the Clinical Indemnity Scheme and the professional responsibilities of any persons attending and/or participating in this programme.

## Centre of Children's Nurse Education Communications Strategy

Our goal is to deliver an internal and external communication framework for continuing education and professional development to our identified target audience. We also try to engage in a two way communications process between all stakeholders.

## 5. Continuing Professional Education Programmes

### PLEASE NOTE:

Deliver methods, learning outcomes and number of participants are subject to change as necessary.

The CCNE offers specific programmes to respond to the needs of Registered Nurses, Registered Midwives and Public Health Nurses. Please contact the CCNE if you require further information. In some cases, additional CCNE programmes may be accessible, at the discretion of the Director of the CCNE, based on clinical need.

## **Anaphylaxis for Healthcare Professionals Blended Learning Programme**

### **Aim of the Programme:**

To provide the knowledge and skills for the recognition and competent management of anaphylaxis when it occurs.

### **Learning Outcomes:**

On completion of the programme, the participant should be able to:

- Differentiate between severe allergic reaction and anaphylaxis
- Familiarise oneself with current NIAC National Immunisation Guidelines and
- other current evidence for the management of Anaphylaxis
- Familiarise oneself with national guidelines for the management of Anaphylaxis
- Demonstrate the management and care of infants, children and adults with
- anaphylaxis
- Demonstrate the calculations and preparation of appropriate drugs following NIAC Current Anaphylaxis Guidelines

**Target Audience:** Registered Nurses and Midwives

**Programme Coordinators:** Registered Nurse Tutor, CCNE

**Facilitators:** Nurse Tutors

**Number of Places:** 6

**Level of Learning:** NMBI Post Registration Category 1 Approval (3 CEUs)

**To Book a place:** Enrol online through HSELand - <https://www.hseland.ie//> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).

**Enquiries:** [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

## **Supporting the Parent who is Providing Breastmilk or Breastfeeding their Baby/Child in a Children's Healthcare Setting Blended Learning Programme**

### **Aim of the Programme:**

To provide participants with the opportunity to develop the knowledge, skills and attitudes necessary to support a parent who chooses to breastmilk feed and/or breastfeed their ill baby/child in a children's healthcare setting.

### **Learning Outcomes:**

On completion of the programme, the participants should be able to:

- Recognise the consequences of not breastfeeding on short and long-term health outcomes for both babies/children and parents
- Formulate strategies for the promotion of breastfeeding in their workplace and community
- Demonstrate the positioning of the parent and baby for effective attachment and breastfeeding
- Evaluate the effectiveness of breastfeeding and recommend strategies for more effective breastfeeding
- Examine the challenges to breastfeeding an ill baby/child in a children's unit and construct plans of care with the breastfeeding and breastmilk-feeding parent
- Recommend techniques for effective breastmilk expression
- Evaluate the effectiveness of expressing breastmilk and recommend strategies for more effective expression
- Describe the resources that will support the parent and baby/child in the community

### **Components:**

**Step 1:** Complete the National Infant feeding/breastfeeding eLearning programme on HSELand

**Step 2:** Attend a face-to-face session in the CCNE

### **Target Audience:**

Registered Children's Nurses / Registered Nurses / Health and Social Care Professionals and other support staff working in an acute children's healthcare setting

### **Programme Coordinator**

Registered Nurse Tutor, CCNE

### **Facilitators:**

Lactation Specialists, Nurse Tutor, Dietician, Clinical Nurse Specialist (Neonatal), Speech & Language Specialists

### **Number of Places:**

**22**

### **To Book a place:**

Enrol online through HSELand - <https://www.hseland.ie> and follow the instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).

### **Enquiries:**

[admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

## Care and Management of a Central Venous Access Device when used for a Child in the Community

### Aim of the Programme:

To provide nurses with the opportunity to enhance the specific knowledge, skills and attitudes required to safely manage care for a child with a central venous access device in the community care setting.

### Learning Outcomes:

At the end of the programme the participant should be able to:

- Identify and discuss the HSE (2017) Guideline for Care and Management of a Central Venous Access Device when used for a Child in the Community
- Critically discuss the care of a CVAD when not in use
- Explain how to change a needle free device and connecting line
- Discuss how to prime and connect a syringe driver to a CVAD for the administration of medication via a syringe driver
- Identify the risks of infection associated with the care and management of long term use of a CVAD in a child in the community
- Appreciate the psychological effect that a CVAD has on the child and family
- Outline the criteria for discharge planning when a child is going home with a CVAD
- Troubleshoot any common complications that may occur with a CVAD
- Identify the required Nursing and Midwifery Board of Ireland documents that the nurse must adhere to when managing the care of a child with a CVAD in the community.

<b>Target Audience:</b>	Registered Children's Nurse / Registered Nurse / Registered Midwife/ Registered Public Health Nurse involved in the care and management of a child with a Central Venous Access Device in the community setting.
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Nurse Tutor, Clinical Nurse Education Facilitators, Clinical Nurse Specialists Paediatrics
<b>Number of Places:</b>	<b>10-15</b>
<b>To Book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## Care of a Critically Ill Child (CAIC)

### Aim of the Programme:

To develop learners' knowledge and skills in recognising and managing the acutely ill/deteriorating child.

### Learning Outcomes:

At the end of the programme the participant should be able to:

1. Perform a systematic assessment of a child, using the ABCDE approach
2. Demonstrate effective communication by escalating concerns using the ISBAR tool
3. Identify and Initiate initial nursing management of the acutely unwell child
4. Demonstrate situational awareness to ensure safe and quality nursing care

<b>Target Audience:</b>	Registered Nurses employed at Children's Health Ireland ('CHI') and enrolled on the New Graduate Children's Nurse Transition Programme ('Transition Programme').
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Nurse Tutor, Clinical Nurse Education Facilitators, Clinical Nurse Specialists Paediatrics
<b>Number of Places:</b>	<b>15-25</b>
<b>To Book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Caring for the Infant or Child with a Colorectal Disorder and/or Stoma**

### **Aim of the programme:**

To provide the participants with the opportunity to enhance the specific knowledge, skills and attitudes required to safely and effectively care for a child or infant with a colorectal disorder and/or stoma.

### **Learning outcomes:**

On completion of the programme, the participant should be able to:

- Describe the aetiology of colorectal disorders in children
- Relate to the psycho-social effects of a colorectal disorder on a child and family
- Outline the care of a child with constipation
- Manage the safe and effective administration of dilations and/or washouts in children
- Identify and use the correct products to effectively care for a child or infant with a stoma

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses / Registered Midwives working in paediatric/neonatal units and the community care setting.
<b>Programme coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Clinical Nurse Specialists, Medical staff
<b>Number of places:</b>	<b>24</b>
<b>To Book a place:</b>	Enrol online through HSEland - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries/Contacts:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **An Introduction to Caring for a Child with Complex Needs in the Community**

### **Aim of the programme:**

To provide an introduction to the care of children with complex needs in the community.

### **Learning outcomes:**

On completion of the programme the participant should be able to:

- Explore the principles of caring for children with complex needs in community settings
- Discuss the impact of complex care needs on the child and their family
- Identify services and resources that support quality care for children with complex needs and their families in the community
- Recognise the importance of integrated care and collaborative teamwork with children, families, multidisciplinary healthcare professionals and organisations

<b>Target Audience:</b>	Registered Children's Nurses/Registered Nurses, Health and Social Care professionals, who are caring for a child with complex needs in the community
<b>Programme coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Registered Nurse Tutor, Clinical Lead Paediatric Home Care Packages/Primary Care Access & Integration, Paediatric Home Care Packages Coordinators, Psychologists, Medical Social Workers, Abhaile Planner Coordinator, Clinical Nurse Specialists
<b>Number of places:</b>	<b>45</b>
<b>Level of Learning:</b>	5.5 CPD hours (in accordance with NMBI guidance)
<b>To Book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## Caring for a Child with Epilepsy

### Aim of the Programme:

To provide participants with the opportunity to enhance the specific knowledge, skills and attitudes required to safely and effectively care for a child with epilepsy in the hospital, community and home settings.

### Learning Outcomes:

On completion of the programme, the participant should be able to:

- Recognise and accurately record epileptic seizures
- Explain the nursing management of a child presenting with epileptic seizures
- Administer rescue medications safely and effectively
- Describe the non-pharmacological treatment options for children with epilepsy
- Evaluate the psychosocial implications of epilepsy on the child and his/her family
- Develop a discharge plan for a child with epilepsy, including home safety considerations

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses
<b>Programme Coordinators:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Registered Advanced Nurse Practitioner (Children's Epilepsy) and Clinical Nurse Specialists (Neurology/Epilepsy) and members of the Multi-Disciplinary Team
<b>Number of Places:</b>	<b>32</b>
<b>To book a place:</b>	Enrol online through HSEland - <a href="https://www.hseland.ie">https://www.hseland.ie</a> and follow the instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Caring for a Child with a Gastrostomy**

### **Aim of the Programme:**

To provide participants with the opportunity to enhance the specific knowledge, skills and attitudes required to safely and efficiently care for a child with a gastrostomy, in the hospital, community and home settings.

### **Learning Outcomes:**

On completion of the programme, the participant should be able to:

- Outline the indications for insertion of a gastrostomy in children
- Critically evaluate the nursing care of a child following insertion of a gastrostomy tube
- Discuss the nursing management of potential complications associated with a gastrostomy
- Recognise the nutritional considerations when feeding via a gastrostomy
- Discuss safe medication management when administering medications via a gastrostomy
- Discuss the psychosocial challenges that may be encountered by the child and his/her family

### **Target Audience:**

Registered Children's Nurses / Registered Nurses and Health and Social Care Professionals

### **Programme Coordinator:**

Registered Nurse Tutor, CCNE

### **Facilitators:**

Clinical Nurse Specialist (Enteral Nutrition/Gastrostomy care), Clinical Education Facilitator, Dietician, Pharmacist, Dental Nurse.

### **Number of Places:**

**32**

### **To Book a place:**

Enrol online through HSEland - <https://www.hseland.ie//> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).

### **Enquiries:**

[admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

## **Caring for the Child with Haemophilia and Allied Bleeding Disorders**

### **Aim of the programme:**

To provide the participants with the opportunity to enhance the specific knowledge, skills and attitudes required to safely and effectively care for a child with a bleeding disorder.

### **Learning outcomes:**

On completion of the programme, the participant should be able to:

- Differentiate between common inherited bleeding disorders in children
- Identify the different classifications of bleeding disorders
- Organise care for the child presenting for emergency management
- Compare treatment options for children with bleeding disorders
- Implement individualised treatment plans
- Calculate and prepare coagulation factor concentrate
- Describe the role of the multidisciplinary team in providing psychosocial support to the child and family

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses / Health and Social Care Professionals
<b>Programme coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Advanced Nurse Practitioner (Haemophilia), Clinical Nurse Specialists, Medical staff, Health and Social Care Professionals
<b>Number of places:</b>	<b>24</b>
<b>To Book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Caring for the Child with a Life-Limiting Condition - Level A Programme**

### **Aim of the Programme:**

To raise an awareness of the principles and practices of utilising a palliative care approach in the provision of health and social services for children with life-limiting conditions and their families.

### **Learning Outcomes:**

On completion of the programme the participant should be able to:

- Describe the philosophy and principles of caring for children with a life-limiting condition, in any healthcare setting, by the multidisciplinary team
- Discuss the implications of a life-limiting condition for the child and family
- Identify the statutory and voluntary agencies that deliver services for children with life-limiting conditions
- Discuss appropriate pain management for children with a life-limiting condition
- Describe some of the common therapies available for children with life-limiting conditions
- Discuss the ethical issues related to palliative care for children

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses / Registered Midwives and Health and Social Care Professionals who provide care for children with life-limiting conditions and their families.
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Nurse Tutors, Clinical Nurse Facilitators, Clinical Nurse Specialists, Medical Staff and members of the Multi-Disciplinary Team
<b>Number of Places:</b>	<b>40</b>
<b>Level of Learning:</b>	NMBI Post Registration Category 1 Approval
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Caring for the Child with a Life-Limiting Condition - Level B Programme**

### **Aim of the Programme:**

The aim of this clinical professional development (CPD) module programme is to provide the participants with opportunities to acquire additional knowledge, principles, experiences and values, supporting the nursing care required to meet the needs of the palliative child with a life-limiting condition and their families.

### **Learning Outcomes:**

On completion of the programme, the participant will be able to:

- Examine the principles and philosophy of Children's Palliative Care, and its impact on the delivery of supportive and holistic care for a child with life-limiting conditions
- Analyse the stages of child development in relation to life-limiting conditions and the trajectory of the condition to the time of death
- Assess, plan, implement and evaluation therapeutic aspects of nursing care and treatment for children with life-limiting conditions from a palliative care perspective
- Embrace a palliative care approach to end of life care, grief and loss of the child with a life-limiting condition and their families, including siblings
- Demonstrate leadership and communication skills within health and social care systems (statutory and voluntary) to provide quality child and family centred care
- Outline how policy, finance, and regulatory environments impact care for the child and family

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses / Registered Midwives who provide care for children with life-limiting Conditions and their families.
<b>Duration:</b>	5-7 day programme. The theoretical component of the programme will be delivered over a 3-week time frame.
<b>Facilitators:</b>	Nurse Tutors, Clinical Nurse Facilitators, Clinical Nurse Specialists, Medical Staff, members of the Multi-Disciplinary Team and subject experts.
<b>Number of Places:</b>	<b>20</b>
<b>Level of Learning:</b>	National Framework of Qualifications (NFQ) level 10 (Credits)
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Caring for the Child/Adolescent with a Mental Health Disorder**

### **Aim of the Programme:**

To provide the participants with the opportunity to enhance, develop and extend their knowledge base and understanding of child/adolescent mental health. It will provide an overview of the management of young people with mental health difficulties, both in hospital and the outpatient settings.

### **Learning Outcomes:**

On completion of the programme the participant should be able to:

- Recall the aetiology of child/adolescent mental health disorders
- Assess, plan, implement and evaluate the nursing care of child/adolescent with Anorexia Nervosa
- Outline the development of depression in child/adolescent and related drug treatments
- Explain pathological anxiety and how it affects the child/adolescent with specific reference to Generalised Anxiety Disorder and Obsessive Compulsive Disorder
- Describe the diagnostic criteria for Autism Spectrum Disorder, sensory/behavioural issues and the nursing considerations required
- Arrange the follow-up care required for a child/adolescent with a mental health disorder

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses
<b>Programme Coordinator:</b>	Registered Nurse Tutor, Post Graduate Education Coordinator, CCNE
<b>Facilitators:</b>	Clinical Nurse Specialist, Child and Adult Mental Health Department, Clinical Nurse Specialists and members of the Multi-Disciplinary Team in CHI at Temple Street
<b>Number of Places:</b>	<b>35</b>
<b>To Book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).

## **Clinical Leadership Programme for Clinical Nurse and Midwife Managers 1 & 2 (and equivalent grades)**

This programme will take place over three days and participants must attend all three dates. Participants will be supported with presentations, an individual workbook, and interactive group work and recommended reading. During the programme, participants are required to shadow a colleague, which must be arranged by the participant.

### **Aim of the Programme:**

To support CNM/CMM 1 and 2s and equivalent grades to develop their leadership skills and knowledge through the programme content and their own application of learning to practice.

### **Course Objectives:**

Participants will have the opportunity to:

- Learn self-care strategies for themselves and others
- Further develop their self-awareness and emotional intelligence
- Explore the concept of clinical leadership in practice
- Use clear direct communication as a leader
- Explore the management of conflict using respectful challenge
- Develop skills in leading a cohesive and effective team
- Develop their negotiation, influencing and political awareness skills

<b>Target Audience:</b>	Clinical Nurse Managers 1 & 2 and equivalent grades, employed in CHI
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Registered Nurse Tutor, Clinical Nurse Manager 3, Guest Speakers
<b>Number of Places:</b>	<b>20</b>
<b>Level of Learning:</b>	NMBI Post Registration Category 1 Approval (21 CEUs)
<b>To Book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Nursing Care of an Infant with a Nasopharyngeal Airway E-learning programme**

### **Aim of the Programme:**

This programme describes the nursing care necessary to safely and effectively care for an infant with a Nasopharyngeal Airway in situ.

### **Learning Outcomes:**

On completion of the programme, the participant should be able to:

- Implement nursing interventions to help reduce the risk of a Nasopharyngeal Airway blocking
- Identify when a Nasopharyngeal Airway is blocked
- Demonstrate safe insertion and securing of a Nasopharyngeal Airway

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses working with infants who have a Nasopharyngeal Airway in situ.
<b>Programme Coordinators:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Clinical Nurse Specialists (Airway Management)
<b>Number of Places:</b>	<b>Open</b>
<b>To Book a place:</b>	Enrol online through HSELand-courses-clinical skills catalogue
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Caring for the Child requiring Non-Invasive Ventilation (NIV)**

### **Aim of the Programme:**

To provide participants with the opportunity to enhance the specific knowledge, skills, and attitudes required to safely and effectively care for a child who requires non-invasive ventilation in the hospital, community and home setting.

### **Learning outcomes:**

On completion of the programme, the participant should be able to:

- Define sleep disordered breathing and outline reasons why a child may require NIV
- Determine the appropriate use of NIV
- Distinguish between CPAP and BiPAP
- Demonstrate the safe administration of Non-Invasive Ventilation to a child, including appropriate mask and device requirements
- Evaluate the effective administration of Non-Invasive Ventilation

**Target Audience:** Registered Nurses and other health and social care professionals caring for children requiring Non-Invasive Ventilation

**Programme Coordinator:** Registered Nurse Tutor, CCNE

**Facilitators:** Advanced Nurse Practitioner, Clinical Nurse Specialists, Medical Practitioners.

**Number of Places:** 30

**To book a place:** Enrol online through HSELand - <https://www.hseland.ie//> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).

**Enquiries:** [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

## Management of Children's Pain in the Acute Hospital Setting

### Aim of the Programme:

To develop the participant's knowledge, skills and attitudes in the assessment and management of children's pain.

### Learning Outcomes:

On completion of the programme, the course participant should be able to:

- Describe the pathophysiological basis of pain in neonates and children
- Describe the physiologic and behavioural consequences of pain in neonates and children
- Choose the appropriate pain assessment for acute, complex/ chronic pain in neonates and children, including children with an intellectual disability
- Employ evidenced based practices for the management of acute, chronic and complex pain in children and young people with diverse illnesses.
- Use non-pharmacological interventions in the management of pain
- Recognise and provide nursing support to a child with opioid/benzodiazepine withdrawal
- Display effective communicate skills with members of the multidisciplinary team when managing the care of a child experiencing acute, persistent or complex pain

### Target Audience:

Registered Children's Nurses / Registered Nurses / Registered, Midwives working in the Children's Acute Hospital Setting

### Programme Coordinators:

Registered Nurse Tutor, CCNE

### Facilitators:

ANP (Children's Pain) & Clinical Nurse Specialists (Children's Pain)

### Number of Places:

18

### To Book a place:

Enrol online through HSELand - <https://www.hseland.ie//> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).

### Enquiries:

[admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

## **Peripheral Intravenous Cannulation in Children – A Blended Learning Education Programme**

### **Aim of the Programme:**

To further develop the knowledge and skills of Registered Children's Nurses / Registered Nurses who are working with children in peripheral intravenous cannulation techniques, by providing a structured standardised training programme. It is also to aid in the preparation and support of children and their families while undergoing peripheral intravenous cannulation procedures (HSE 2017).

### **Learning Outcomes:**

On completion of the programme, the participant should be able to:

- Outline indications for peripheral intravenous cannulation
- Identify anatomical structures and appropriate choice of sites applicable to peripheral intravenous cannulation
- Preparation of the child both physically and psychologically for peripheral intravenous cannulation
- Recognise the need for pain management and pharmacological and non-pharmacological methods of pain relief
- Critically analyse his/her role in the clinical practice of peripheral intravenous cannulation
- Critically evaluate strategies that enable communication with service users/families
- Discuss the professional, legal and ethical issues associated with the clinical practice of peripheral intravenous cannulation
- Critically evaluate the principles of infection prevention and control and health and safety principles as they relate to the safe clinical practice of peripheral intravenous cannulation
- Employ the principles of safety, clinical holding techniques and child protection
- Successfully complete the theoretical online self -assessment
- Manage problems and potential complications associated with peripheral intravenous cannulation

### **Four Elements of the Peripheral Intravenous Cannulation Blended Learning Education Programme:**

The participant must have completed the following four elements of the programme before they can be deemed competent in peripheral intravenous cannulation.

1. E-Learning Module Access through: [www.hseland.ie](http://www.hseland.ie)  
(Must be completed prior to attending the Clinical Skills Demonstration/Session.)
2. Clinical Skills Demonstration and Practice Session
3. Supervised Clinical Practice and Competence Assessment
4. Competence Assessment (HSE 2017)

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses ***Criteria for Nurses and Midwives commencing the skill of Peripheral Intravenous Cannulation outlined on Page: 22 of the "Guiding Framework for Education, Training and Competence Validation in Venepuncture and Peripheral Intravenous Cannulation for Nurses and Midwives***
<b>Programme Coordinators:</b>	Registered Nurse Tutor, CCNE Professional Development Coordinator, CHI
<b>Facilitators:</b>	Expert Nurse in Intravenous Cannulation Techniques, Nurse Tutor and Professional Development Coordinator
<b>Number of Places:</b>	6
<b>To Book a place:</b>	Enrol online through HSEland - <a href="https://www.hseland.ie/">https://www.hseland.ie/</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **The Nursing Care, Prevention and Management of Pressure Ulcers in Children**

### **Aim of the Programme:**

To enhance the knowledge, skills and attitudes of children's nurses/registered nurses to safely and effectively care for the child who is at risk of developing a pressure ulcer, and management strategies for the child who has developed a pressure ulcer.

### **Learning Outcomes:**

On completion of the programme, the participant should be able to:

- Describe the prevention measures and management of pressure ulcers in children
- Discuss the causes of pressure ulcers in hospitalised children
- Demonstrate the correct use of the pressure ulcer risk assessment form and describe the staging of pressure ulcers
- Outline the appropriate selection of dressings based on pressure ulcer staging

<b>Target Audience:</b>	Children's Nurses, Registered Children's Nurses / Registered working in an acute healthcare setting
<b>Programme Coordinators:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Clinical Nurse Specialists, Advanced Nurse Practitioners, Company Representatives
<b>Number of Places:</b>	<b>24</b>
<b>To book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Caring for the Child with a Respiratory Problem**

### **Aim of the Programme:**

To provide participants with the opportunity to enhance the specific knowledge, skills, and attitudes required to safely and effectively care for a child with a respiratory problem in an acute care setting.

### **Learning Outcomes:**

On completion of the programme, the participant should be able to:

- Perform an accurate respiratory assessment of a child
- Construct a nursing care plan for a child with common respiratory problems
- Describe the care of a child receiving non-invasive ventilation
- Administer respiratory support to a child via Airvo
- Demonstrate effective inhaler technique

**Target Audience:** Registered Children's Nurses / Registered working in an acute healthcare setting

**Programme Coordinators:** Registered Nurse Tutor, CCNE

**Facilitators:** Clinical Nurse Specialists, Advanced Nurse Practitioners, Company Representatives

**Number of Places:** 24

**To book a place:** Enrol online through HSELand - <https://www.hseland.ie//> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).

**Enquiries:** [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

## **Nursing care of Children and Young People with Sickle Cell Disease**

### **Aim of the programme:**

To provide an opportunity for Registered Children's Nurses/Registered Nurses to develop their knowledge, skills, attitudes and professional values, to manage and deliver safe and effective nursing care to children with Sickle Cell Disease in a clinical setting.

### **Learning outcomes:**

On completion of the programme, participants should be able to:

- Describe the diagnosis process of Sickle Cell Disease in the infant/child
- Outline the importance of Sickle Cell Disease screening
- Identify the specific nursing management of the child and young person with Sickle Cell Disease
- Devise a nursing care plan for a child or young person with Sickle Cell Disease
- Develop links with members of the multi-disciplinary team involved in the holistic care of the child or young person with Sickle Cell Disease
- Implement effective pain management strategies for the child or young person with Sickle Cell Disease

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses / Registered Midwives working in acute care settings.
<b>Programme coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Clinical Nurse Specialist, Medical Scientists, Consultant Haematologists, Advanced Nurse Practitioners, Allied Health & Social Care Professionals.
<b>Number of places:</b>	<b>24</b>
<b>To Book a place:</b>	Enrol online through HSEland - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Caring for the Child requiring Elective Spinal Surgery**

### **Aim of the Programme:**

To provide participants with the opportunity to develop the specific knowledge, skills and attitudes to enable them to adopt a therapeutic and holistic approach in managing the care of a child requiring elective spinal surgery.

### **Learning Outcomes:**

At the end of the programme, the participant should be able to:

- Revise the anatomy and physiology of the loco-motor system with specific attention to the bones of the spinal column
- Formulate a nursing care plan for a child having undergone elective spinal surgery to address their specific post-operative nursing care needs
- Explain the characteristics of effective pain management in the child having undergone spinal surgery and the factors that either facilitate or inhibit these in children
- Establish and maintain links with members of the Multidisciplinary team in the provision of holistic care to the child with a spinal condition

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses
<b>Programme</b>	Registered Nurse Tutor, CCNE Clinical Nurse Education
<b>Coordinators:</b>	Facilitators, CHI at Crumlin
<b>Facilitators:</b>	Clinical Nurse Specialists Paediatrics, Clinical Nurse Education Facilitators, Orthopaedic Consultants, Dietician, Physiotherapist
<b>Number of Places:</b>	<b>30</b>
<b>To Book a place:</b>	Enrol online through HSEland - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Nursing Care of a Child with a Tracheostomy Blended Learning Programme for Registered Nurses**

### **Aim of the Programme:**

To provide participants with the opportunity to develop the specific knowledge, skills, and attitudes required to safely and effectively care for a child with a tracheostomy in an acute care setting, in their home, educational, and respite settings.

### **Learning Outcomes:**

On completion of the programme, participants should be able to:

- Outline the anatomy and physiology of the normal upper airway in children
- Outline the indications for tracheostomy in children
- Demonstrate effective and safe suctioning technique on a manikin
- Demonstrate tracheostomy stoma & skin care and tie changing on a manikin
- Demonstrate a planned and an emergency tracheostomy tube change on a manikin
- Describe the adaptations to basic life support for the child with a tracheostomy

### **Components:**

#### **Part 1: Complete the eLearning programme 'Nursing Care of a Child with a Tracheostomy'.**

This comprises:

Module 1: Overview of tracheostomy in children

Module 2: Suctioning a tracheostomy tube

Module 3: Cleaning the stoma and neck, and securing the tube

Module 4: Performing a planned tracheostomy tube change

Module 5: Immediate emergency management

#### **Part 2: Attend face-to-face workshop session**

### **Target Audience:**

Registered Children's Nurses, Registered Nurses

### **Programme Coordinator:**

Registered Nurse Tutor, CCNE

### **Facilitators:**

Clinical Nurse Specialists (Airway Management)

### **Number of Places:**

8

### **To Book a place:**

Sessions will open on HSELand 8 weeks in advance of the scheduled date for face-to-face workshop session. Enrol online through HSELand - <https://www.hseland.ie//> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).

## **Venepuncture in Children Blended Learning Programme**

### **Aim of the Programme:**

To further develop the knowledge and skills of Registered Children's Nurses / Registered Nurses who are working with children, in venepuncture techniques by providing a structured standardised training programme. It is also to aid in the preparation and support of children and their families while undergoing venepuncture procedures (HSE 2017).

### **Learning Outcomes:**

At the end of the programme, the participant should be able to:

- Outline indications for a venepuncture procedure
- Identify anatomical structures and appropriate choice of sites applicable for venepuncture
- Critically analyse his/her role in the clinical practice of venepuncture
- Critically evaluate strategies that enable communication with service users/families
- Discuss the professional, legal and ethical issues associated with the clinical practice of venepuncture
- Critically evaluate the principles of infection prevention and control and health and safety principles as they relate to the safe clinical practice of venepuncture
- Employ the principles of safety, clinical holding techniques and child protection
- Successfully complete the online theoretical self -assessment
- Manage problems and potential complications associated with venepuncture.

### **Four Elements of the Venepuncture Blended Learning Education Programme:**

The participant must have completed the following four elements of the programme before they can be deemed competent in Venepuncture:

1. E-Learning Module Access through: [www.hseland.ie](http://www.hseland.ie)  
(must be completed prior to attending the Clinical Skills Demonstration / Session)
2. Clinical Skills Demonstration and Practice Session
3. Supervised Clinical Practice and Competence Assessment
4. Competence Assessment (HSE 2017)

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses  ***Criteria for Nurses and Midwives commencing the skill of Peripheral Intravenous Cannulation outlined on Page: 22 of the "Guiding Framework for Education, Training and Competence Validation in Venepuncture and Peripheral Intravenous Cannulation for Nurses and Midwives***

## **Communication & Self Care for New Graduate Children's (New Graduate Children's Nurse Transition Programme)**

### **Aim of the Programme:**

The programme aims to support positive transitions from nursing student to RCN in CHI, equipping new graduate nurses (from the BSc programme) with knowledge and techniques to help improve their personal resilience, wellness, communication and support during their transition.

### **Learning Outcomes:**

On completion of the programme, the participant should be able to:

- Distinguish the support networks for new graduate nurses in CHI
- Examine the importance of personal resilience and a positive focus in work environments.
- Evaluate effective communication skills required by RCNs when caring for children and their families
- Recognise the value in caring for oneself to care for others

<b>Target Audience:</b>	Newly qualified Registered Children's Nurses/Registered Nurses in CHI (BSc programme), undertaking the New Graduate Children's Nurse Transition Programme
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Nurse Tutors, Psychology team, Employee Health & Wellbeing Coordinator, Senior Nursing Managers, Partnering with Patients Coordinator, CHI Professionalism team.
<b>Number of places:</b>	25

## **Caring for a Child with a Burn Injury**

### **Aim of the Programme:**

To provide participants with the opportunity to develop the specific knowledge, skills and attitudes required to safely and effectively care for a child with a burn injury.

### **Learning Outcomes:**

On completion of the programme the participant should be able to:

- Describe the anatomy and physiology of the skin in relation to the epidemiology of a burn injury
- Discuss the appropriate initial nursing management of a child with a burn injury
- Choose the appropriate wound dressings
- Describe the role of the Physiotherapist, Occupational Therapist and Plastic Surgeon in maintaining mobility and scar management
- Appreciate the psychological and social effects of a burn injury on both the child and family
- Outline common burn injury complications

<b>Target Audience:</b>	Nurses/registered nurses, and other relevant healthcare professionals, working in any area that cares for a child with a burn.
<b>Programme Coordinator:</b>	Nurse Tutor, CCNE, CHI at Crumlin
<b>Facilitators:</b>	Clinical Nurse Facilitator, Clinical Nursing staff, Psychologist, Occupational Therapist, Physiotherapist, Consultant Plastic Surgeon, Clinical Nurse Specialist.
<b>Number of Places:</b>	<b>30</b>
<b>To Book a place:</b>	Enrol online through HSEland - <a href="https://www.hseland.ie/">https://www.hseland.ie/</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).

## **An Introduction to Caring for a Child with Epidermolysis Bullosa**

### **Aim of the Programme:**

To enhance the knowledge, skills and attitudes of children's nurses/registered nurses and other relevant Healthcare Professionals who care for children with Epidermolysis Bullosa.

### **Learning Outcomes:**

On completion of the programme, the participant should be able to:

- Describe Epidermolysis Bullosa and its associated symptoms and complications
- Describe the principles of caring for a child with Epidermolysis Bullosa
- Discuss effective wound management and use of appropriate dressings
- Recognise the psychosocial impact of living with Epidermolysis Bullosa on children and families, and positive strategies to deliver holistic, child-centred care
- Recognise the importance of a multidisciplinary team approach to the care of children with Epidermolysis Bullosa

<b>Target Audience:</b>	Registered Children's Nurses/Registered Nurses, Health and Social Care Professionals, who are caring for a child with a neurodisability
<b>Programme Coordinators:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Registered Nurse Tutor, Advanced Nurse Practitioners and Clinical Nurse Specialists, Consultant Dermatologist, Complex Needs Coordinator, Consultant in Dentistry, Dietician, Occupational Therapist, Psychologist, Parent Representative, Debra Ireland
<b>Number of Places:</b>	<b>40</b>
<b>Level of Learning:</b>	7 CPD hours (in accordance with NMBI guidance)
<b>To Book a place:</b>	Enrol online through HSEland - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).

## **An Introduction to Caring for a Child with a Neurodisability**

### **Aim of the Programme:**

To provide an introduction to the care of a child with a Neurodisability.

### **Learning Outcomes:**

On completion of the programme, the participant should be able to:

- Define neurodisability in children and describe common types of neurodisability in children
- Examine the roles of various healthcare professionals in the care of children with a neurodisability
- Evaluate the impact of neurodisability on a child's physical, emotional, and social development, and the implications for their families
- Describe key principles of effectively caring for children with a neurodisability

<b>Target Audience:</b>	Registered Children's Nurses/Registered Nurses, Health and Social Care Professionals, who are caring for a child with a neurodisability
<b>Programme Coordinators:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Registered Nurse Tutor, Advanced Nurse Practitioners and Clinical Nurse Specialists, Nurse Manager, Children's Disability Network Team
<b>Number of Places:</b>	<b>50</b>
<b>Level of Learning:</b>	6 CPD hours (in accordance with NMBI guidance)
<b>To Book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Caring for Non-Critical Infants / Children who require Transportation Abroad**

### **Aim of the Programme:**

To support registered nurses to develop the required knowledge, skills and attitudes to care safely for non-critical infants/children who require transportation abroad.

### **Learning Outcomes:**

On completion of the programme, the participant should be able to:

- Discuss the unique challenges of transportation for the child, family and healthcare professionals
- Identify the potential physiological impact of altitude on infants/children
- Explain the principles and safety of medication management during transportation abroad
- Discuss the nursing care of an infant/child within an airplane/helicopter
- Demonstrate effective use of transfer equipment
- Identify the resources available to support the safe and effective care of the infant/family during transportation abroad

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses
<b>Programme Coordinators:</b>	Registered Nurse Tutor, CCNE Children's Cardiac Foundation Programme Coordinator, CHI at Crumlin
<b>Facilitators:</b>	Clinical Nurse Specialists Paediatrics, Clinical Nurse Managers, Clinical Nurse Education Facilitators, Senior Nurse Managers, Medication Practice Facilitator and Clinical Engineers.
<b>Number of Places:</b>	<b>18</b>
<b>To Book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## Caring for the Child with a Renal Condition

### Aim of the Programme:

To provide the participants, with less than one years' experience, the opportunity to enhance the specific knowledge, skills and attitudes required to safely and effectively care for a child with a Renal Condition.

### Learning outcomes:

On completion of the programme the participant should be able to:

- Assess and plan interventions in relation to fluid management in a child with a renal condition
- Organise the nursing care of a child with Haemolytic Uraemic Syndrome
- Describe the care pathway for a child undergoing a kidney transplant
- Describe the dietary needs of a child with a renal condition
- Perform and record an accurate blood pressure
- Examine the use of antihypertensive and diuretic medications in a child with a renal condition
- Discuss the urology care of a child with nephrology condition

<b>Target Audience:</b>	Registered Children's Nurses and Registered working in Children's health Ireland.
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Clinical Nurse Specialists, Clinical Nurse Education Facilitators
<b>Number of Places:</b>	<b>18</b>
<b>To Book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Caring for the Child requiring Haemodialysis (Advanced level)**

### **Aim of the Programme:**

To provide the participants with an opportunity to develop the specific skills, knowledge and attitudes necessary to deliver safe and effective nursing care to children requiring haemodialysis in an acute care setting.

### **Learning outcomes:**

On completion of the programme the participant should be able to:

- Identify the physiological transport principles underpinning haemodialysis
- Organise the nursing care of a child during a haemodialysis treatment
- Identify the potential complications associated with haemodialysis
- Determine the care pathways of acute and chronic haemodialysis treatment plans
- Identify the role of the multidisciplinary team in the provision of a support to the child undergoing haemodialysis
- Demonstrate the management of common circuit alarms and potential adverse patient events during a haemodialysis treatment
- Demonstrate competence in the management of haemodialysis vascular access

**Target Audience:** Registered Nurses and other health and social care professionals caring for children requiring Non-Invasive Ventilation

**Programme Coordinator:** Registered Nurse Tutor, CCNE

**Facilitators:** Clinical Nurse Specialists, Clinical Nurse Managers, Therapy Specialist Nurse, Members of the MDT.

**Number of Places:** 30

**To Book a place:** Email [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie) stating:-

- Programme of interest
- Name
- Job title
- Contact details

**Enquiries:** [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

## **Caring for the Child Requiring Intravenous (IV) Therapy**

### **Aim of the Programme:**

To provide the theoretical component of Intravenous Therapy Management (IVT) and enable Registered Children's Nurses / Registered Nurses develop the required knowledge, skills and attitudes to administer intravenous fluids and medications safely to children.

### **Learning Outcomes:**

At the end of the programme, the participant should be able to:

- Discuss the principles of caring for a child requiring intravenous therapy
- Evaluate the principles of safe preparation and administration of intravenous medications
- Discuss the appropriate care of children requiring intravenous analgesia
- Demonstrate effective use of infusion pumps
- Discuss the care required of a child with an/a:
  - i. Intravenous Cannula
  - ii. Central Line
  - iii. Hickman Catheter
  - iv. Implantable Central Venous Devices
  - v. PICC

### **Target Audience:**

Registered Children's Nurses / Registered Nurses

### **Programme Coordinators:**

Registered Nurse Tutor, CCNE Continuing Professional Development Coordinator, CHI

### **Facilitators:**

Nurse Tutor, Clinical Nurse Education Facilitators, Clinical Nurse Specialists Paediatrics, Pharmacist and Training Specialists from manufacturing companies

### **Number of Places:**

**20**

### **To Book a place:**

[admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

### **Enquiries:**

## Foundation Programme - Children's Cardiac Nursing

### Aim of the Programme:

To augment the nurse's knowledge, skills and attitudes required to effectively and safely care for the child with a cardiac condition and his/her family in the Children's Heart Centre in Children's Health Ireland at Crumlin. The programme guides and supports the development of registered nurses from a level of advanced beginner to competent.

### Learning Outcomes:

On completion of the programme, the participant should be able to:

- Develop a detailed knowledge and understanding of common cardiac conditions affecting children
- Demonstrate mastery of admission and discharge of a child to the Children's Heart Centre
- Exercise appropriate judgement in assessment, planning and delivering nursing care of a child with common cardiac conditions, altered cardio-respiratory function, altered nutritional requirements and altered thermoregulation
- Exercise appropriate judgement in assessment, planning and delivering nursing care of a child undergoing cardiac surgery
- Provide detailed knowledge and understanding of the psychosocial effects of cardiac conditions on children and their families

<b>Target Audience:</b>	Registered Nurses working in the Children's Heart Centre, CHI at Crumlin
<b>Programme Coordinators:</b>	Children's Cardiac Nursing Foundation Programme Coordinator, Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Children's Cardiac Nursing Foundation Programme Coordinator, Nurse Tutors, Clinical Nurse Facilitators, Clinical Nurse Specialists Paediatrics, Advanced Nurse Practitioners, Allied Health Care Professionals
<b>Number of Places:</b>	<b>12</b>
<b>Level of Learning:</b>	National Framework of Qualifications (NFQ) Level 8 (10 Credits)

## Foundation Programme – Children’s Emergency Nursing

### Aim of the Programme:

The programme aims to further develop the participant’s body of knowledge, skills and attitudes to enable them to safely and effectively care for an ill or injured child and their families in the children’s emergency setting. The programme guides and supports the development of registered nurses from a level of advanced beginner to competent.

### Learning Outcomes:

On completion of the programme the participant should be able to:

- Demonstrate effective emergency nursing care of an injured child
- Demonstrate effective emergency nursing care of the unwell child
- Examine the nursing care, in relation to safeguarding, of children who present in the emergency setting
- Discuss the emergency nursing care of the child with mental health needs
- Examine and appreciate the effective emergency nursing care of a child who has complex healthcare needs
- Organise and appreciate the compassionate care of a child and their family following a sudden/unexpected death
- Demonstrate effective communication skills with children, families, and members of the multidisciplinary team

<b>Target Audience:</b>	Registered Nurses working in Emergency Care Units (Children’s Health Ireland)
<b>Programme Coordinators:</b>	Children’s Emergency Nursing Foundation Programme Coordinator, Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Children’s Emergency Nursing Foundation Programme, Nurse Tutors, Clinical Nurse Education Facilitators, Clinical Nurse Specialists, Advanced Nurse Specialists, Subject Matter Experts
<b>Number of Places:</b>	<b>12</b>
<b>Level of Learning:</b>	National Framework of Qualifications (NFQ) Level 8 (10 Credits)

## Foundation Programme – Children’s Perioperative Nursing

### Aim of the Programme:

To support new graduate nurses and nurses who are new to the speciality of children’s perioperative nursing in CHI. The programme will develop nurses’ knowledge, skills, and attitudes to safely deliver care to children and their families within the complex perioperative environment.

### Learning Outcomes:

At the end of the Perioperative Nursing Foundation Programme the learner will be able to:

- Deliver safe care to children in the perioperative environment, integrating knowledge and evidence-based practice while adhering to the Professional Nursing frameworks
- Provide and maintain a safe environment for the management of children who require the use of the specialist equipment in the perioperative environment
- Deliver safe nursing care to children requiring anaesthesia and recovery
- Demonstrate effective risk management skills and principles of infection control and aseptic technique in perioperative nursing care
- Utilise effective communication strategies with children, families and all members of the multidisciplinary team
- Demonstrate safe nursing management of a child requiring emergency surgery

<b>Target Audience:</b>	Registered Nurses working within theatre departments, Children’s Health Ireland.
<b>Programme Coordinators:</b>	Children’s Perioperative Nursing Foundation Programme Coordinator, Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Children’s Perioperative Nursing Foundation Programme Coordinator, Nurse Tutors, Clinical Nurse Facilitators, Clinical Nurse Specialists, Allied Health Care Professionals
<b>Number of Places:</b>	<b>12</b>
<b>Level of Learning:</b>	National Framework of Qualifications (NFQ) Level 8 (10 Credits)

## Foundation Programme – Paediatric Intensive Care Nursing

### Aim of the Programme:

The programme aims to develop the participant's knowledge, skills and attitudes to enable them to safely and effectively care for a critically ill child and their families in the Paediatric Intensive Care environment. The programme guides and supports the development of registered nurses from a level of advanced beginner to competent.

### Learning Outcomes:

On completion of the programme, participants should be able to:

- Demonstrate effective nursing care of a child with altered respiratory function
- Demonstrate effective nursing care of a child who requires mechanical ventilation
- Demonstrate effective nursing care of a child with altered cardiovascular function
- Critically discuss the principles of care for a child with multi organ dysfunction
- Critically discuss the principles of care for a child with a neurological disorder
- Critically discuss the specific nursing care in relation to a neonate in PICU
- Demonstrate a systematic approach to the assessment and management of Paediatric pain and sedation
- Organise and appreciate the compassionate care of a child and their family following a death
- Demonstrate effective child and family centred care

### Target Audience:

Registered Nurses working in Paediatric Intensive Care Units  
(Children's Health Ireland & the Royal Belfast Hospital for Sick Children)

### Programme Coordinators:

Paediatric Intensive Care Unit Foundation Programme Coordinator, Children's Health Ireland at Crumlin. Registered Nurse Tutor, CCNE, PICU Clinical Nurse Education Facilitators, Children's Health Ireland

### Facilitators:

Paediatric Intensive Care Unit Foundation Programme Coordinator/ Nurse Tutors / Clinical Nurse Education Facilitators / Clinical Nurse Specialists / Advanced Nurse Specialists/Subject Matter Experts

### Number of Places:

**18**

### Level of Learning:

National Framework of Qualifications (NFQ)  
Level 8 (10 Credits)

## **Nursing Care of the Child undergoing Peritoneal Dialysis**

### **Aim of the programme:**

To provide learners with the opportunity to develop the specific knowledge, skills and attitudes required to safely and effectively care for a child undergoing peritoneal dialysis, in an acute care setting.

### **Learning Outcomes:**

On completion of the programme, participants should be able to:

- Examine the assessment and management of fluid status in a child
- Construct pre- and post-operative nursing care plans for a child commencing Peritoneal Dialysis
- Discuss the discharge planning and parent education, necessary to support families
- Employ guidelines in the prevention, recognition and management of suspected peritonitis
- Demonstrate the skills necessary to administer peritoneal dialysis to a child
- Examine troubleshooting strategies

<b>Target Audience:</b>	Registered nurses working in the area of children's nephrology for a minimum of 6 months with some exposure to Peritoneal Dialysis in an acute care setting.
<b>Programme Coordinators:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Clinical Nurse Facilitators, Clinical Nurse Specialists (Nephrology) and members of the multi-disciplinary team.
<b>Number of Places:</b>	<b>24</b>
<b>Level of Learning:</b>	NMBI Category 1 approved in accordance with NMBI guidance
<b>To Book a place:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## Foundation Programme – Haematology Oncology

### Aim of the Programme:

The programme aims to further develop the participant's body of knowledge, skills and attitudes to enable them to safely and effectively care for a child with a Haematology/ Oncology condition and their family.

### Learning Outcomes

At the end of the Haematology Oncology Foundation Programme the learner will be able to:

- Demonstrate the knowledge and management of common Haematology and Oncology conditions affecting children
- Demonstrate competence in the safe handling and administration of Systemic Anticancer Therapies (SACT) and provision of effective nursing care of a child receiving SACT
- Critically discuss the nursing management of a child requiring Supportive Care
- Critically analyse HaemOnc Complications & Emergencies and discuss the prevention and nursing care of a child with same.
- Describe the philosophy and principles of Palliative care/ End of life care to a child and their families
- Appreciate and discuss the psychological and social impact of childhood cancer and recognise the unique contribution of the multidisciplinary team in providing support for the child, family, self and colleagues

### Duration

The duration of the programme is six months, based on a blend of theoretical learning units and clinical components. Theoretical components of the programme will be delivered in the CCNE. The clinical element of the programme will take place in St. John's Haematology Oncology Unit and the Haematology Oncology Day Unit (HODU).

### Target Audience:

Registered Nurses working in Haematology Oncology Units (Children's Health Ireland)

### Programme Coordinators:

Haematology Oncology Foundation Programme Foundation Programme Coordinator and Registered Nurse Tutor, CCNE

### Facilitators:

Haematology Oncology Foundation Programme Coordinator, Nurse Tutors, Clinical Nurse Education Facilitators, Clinical Nurse Specialists, Advanced Nurse Specialists, Subject Matter Experts

### Number of Places:

10

### Level of Learning:

National Framework of Qualifications (NFQ) Level 8 (10 Credits)

## Foundation Programme – Neonatal High Dependency Foundation Programme

### Aim of the Programme:

The aim of this programme is to further develop the learner's body of knowledge, skills and attitudes to enable them to provide holistic evidence-based care to neonates requiring high dependency care and their families.

### Learning Outcomes:

On completion of the programme, the learner will be able to:

- Demonstrate competence in the assessment and management of neonates within the High Dependency Unit
- Examine the management of neonates with altered respiratory and cardiovascular function
- Apply knowledge of the fluid and nutritional requirements of neonates to the nursing care of neonates in the High Dependency Unit
- Explain the principles of developmentally supportive care as they apply to the care needs of the preterm, post term and neonate
- Describe evidence-based nursing care of neonatal neurological and gastrointestinal disorders
- Outline effective communication and interpersonal skills with neonates, their families and members of the interdisciplinary team

<b>Target Audience:</b>	Registered Nurses working in the Neonatal Units across CHI sites.
<b>Programme Coordinators:</b>	Neonatal Nursing Foundation Programme Coordinator Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Neonatal Nursing Foundation Programme Coordinator, Nurse Tutors, Clinical Nurse Facilitators, Clinical Nurse Specialists Paediatrics, Advanced Nurse Practitioners, Allied Health Care Professionals
<b>Number of Places:</b>	<b>12</b>
<b>Level of Learning:</b>	National Framework of Qualifications (NFQ) Level 8 (10 Credits)

## **Final Journeys for the Paediatric Setting (Irish Hospice Foundation Programme)**

### **Aim of the Programme:**

To develop the necessary knowledge, attitudes and communication skills of hospital staff who are involved with the child/young person at end of life, and their family.

### **Learning outcomes:**

At the end of the programme, participants should be able to:

- Contribute to safer, better end-of-life care in their hospital
- Deliver a child, young person and family approach to end-of-life care
- Provide supportive care to families after a death
- Use effective communication skills during end-of-life care
- Identify personalised self-care practices

<b>Target Audience:</b>	CHI staff who are involved with the Child/Young Person and their Family at the end of life
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Social Workers, Clinical Nurse Facilitators, Clinical Nurse Specialists, Clinical Nurse Managers
<b>Number of Places:</b>	<b>20</b>
<b>To Book a place:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## Healthcare Assistant Development Day

The HCA in CHI at Crumlin is an integral member of the multidisciplinary team who supports and assists the role of the Registered Nurse caring for children.

### **Aim of the Programme:**

The aim of this session is to provide the HCA with an overview of their role, responsibility and accountability in the safe delivery of care to children and their families. It will also allow the HCA to reflect on their own self and wellbeing.

### **Content of the session:**

- Expectations of the HCA role in CHI Crumlin
- Communication / Confidentiality
- Engaging / Supporting Families
- HR / Sick Leave

<b>Target Audience:</b>	HCA working in CHI at Crumlin
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	HCA Lead, Nurse Tutor, ADON, Nursing Administration, HR
<b>Number of Places:</b>	<b>10</b>
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Clinical Leadership Programme for Clinical Nurse and Midwife Managers 1 & 2 (and equivalent grades)**

This programme will take place over three days and participants must attend all three dates. Participants will be supported with presentations, an individual workbook, and interactive group work and recommended reading. During the programme, participants are required to shadow a colleague, which must be arranged by the participant.

### **Aim of the Programme:**

To support CNM/CMM 1 and 2s and equivalent grades to develop their leadership skills and knowledge through the programme content and their own application of learning to practice.

### **Course Objectives:**

Participants will have the opportunity to:

- Learn self-care strategies for themselves and others
- Further develop their self-awareness and emotional intelligence
- Explore the concept of clinical leadership in practice
- Use clear direct communication as a leader
- Explore the management of conflict using respectful challenge
- Develop skills in leading a cohesive and effective team
- Develop their negotiation, influencing and political awareness skills

<b>Target Audience:</b>	Clinical Nurse Managers 1 & 2 and equivalent grades, employed in CHI
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Registered Nurse Tutor, Clinical Nurse Manager 3, Guest Speakers
<b>Number of Places:</b>	<b>20</b>
<b>To Book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## Medication Safety Management

### Aim of the Programme:

To enhance the skills and understanding of children's nurses/registered nurses in evidence-based principles and practices in the safe management of medications to children.

### Learning Outcomes:

At the end of the programme, the participant should be able to:

- Critically evaluate the legal and professional issues associated with compounding, checking and administering oral, enteral and intravenous medications to children
- Identify local and national policies/guidelines relevant to what medications may be checked and administered by nurses
- Reflect and critically analyse own practices, identifying accountability and competency issues
- Demonstrate and apply the principles of safe compounding, checking and administration of medications to children
- Appreciate and identify the legal requirements for good record keeping in the compounding, checking and administration of medication to children

<b>Target Audience:</b>	Registered Children's Nurses / Registered Nurses
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE Continuing Professional Development Coordinator, CHI Education Facilitator, CHI
<b>Facilitators:</b>	Nurse Tutor, Clinical Nurse Education Facilitators, Continuing Professional Development Coordinator
<b>Number of Places:</b>	20
<b>To Book a place:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **New Graduate Children's Nurse Transition Programme**

### **Aim of the Programme:**

This twelve-month programme aims to assist new graduate nurses, from the BSc programme, in their transition from student to registered children's nurse, supporting their development from advanced beginner to competent practitioner. The New Graduate Children's Nurse Transition Programme is delivered across Children's Health Ireland.

<b>Target Audience:</b>	New graduate registered nurses (BSc programme) employed in Children's Health Ireland
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE
<b>Facilitators:</b>	Nurse Tutors, Clinical Nurse Education Facilitators, Clinical Nurse Specialists, Senior Nursing Management, Youth Advisory Committee, Quality Department
<b>Number of places:</b>	Specific to each CHI site
<b>To Book a place:</b>	Enrol online through HSELand - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes)
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **Nursing Care of the Ill Neonate (Foundation Level Day)**

### **Aim of the programme:**

To provide participants with the opportunity to enhance the specific knowledge, skills, and attitudes required to safely and effectively care for an ill neonate.

### **Learning Outcomes:**

On completion of the programme, participants should be able to:

- Organise routine neonatal tests and screening for the ill neonate
- Outline the nursing interventions necessary to facilitate normal neurodevelopment
- Describe the nursing role in meeting the nutritional needs of the ill neonate
- Explain the nursing care required for a neonate undergoing gastrointestinal surgery
- Plan nursing care to minimise disruption to thermoregulation
- Plan the nursing care of a neonate with hyperbilirubinemia
- Organise and administer immunisations

**Target Audience:** Registered Children's Nurses / Registered Nurses, who are at advanced beginner level, caring for ill neonates in an acute children's healthcare setting.

### **Programme**

**Coordinators:** Registered Nurse Tutor, CCNE

**Facilitators:** Clinical Nurse Facilitators, Clinical Nurse Specialists (Neonates) and members of the multi-disciplinary team

**Number of Places:** 24

**To Book a place:** Enrol online through HSELand - <https://www.hseland.ie> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).

**Enquiries:** [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

## Preceptorship Programme

### Aim of the Programme:

To prepare registered nurses for their role as preceptors and to provide them with the knowledge, skills and attitudes to provide a quality learning environment for students and new staff in the clinical areas.

### Learning Outcomes:

At the end of the programme, the participant should be able to:

- Discuss the role and responsibilities of the preceptor and the preceptee
- Identify effective teaching/learning strategies, which support a quality clinical learning environment
- Demonstrate effective delivery of constructive feedback to nursing students
- Demonstrate effective use of the National Competency Assessment Document (NCAD)
- Evaluate the supports required for a nursing student who is not achieving a competency

<b>Target Audience:</b>	Registered Nurses in Children's Health Ireland (specific prerequisites apply to this programme, please refer to the CMS for details).
<b>Programme Coordinator:</b>	Registered Nurse Tutor, CCNE.
<b>Facilitators:</b>	Clinical Placement Coordinators / Post-Registration Children's Nursing Coordinators/Nurse Tutors
<b>Number of Places:</b>	<b>24</b>
<b>To Book a place:</b>	Enrol online through HSEland - <a href="https://www.hseland.ie//">https://www.hseland.ie//</a> and follow instructions outlined in Section 3 at the beginning of this Directory (Procedure for Enrolment in Programmes).
<b>Enquiries:</b>	<a href="mailto:admin.ccne@childrenshealthireland.ie">admin.ccne@childrenshealthireland.ie</a>

## **7. Programmes for School Staff**

## **Caring for a Child with a Gastronomy in a Primary School Setting**

This programme delivers education to primary school staff who will be responsible for a child with a gastrostomy in the school.

### **Aim of the Programme:**

To provide the participants with the opportunity to acquire the specific knowledge, skills and attitudes required to safely and effectively care for a child with a gastrostomy in the school setting.

### **Learning Outcomes:**

On completion of the programme the participant should be able to:

- Outline the reasons why a child may need a gastrostomy
- Describe the needs of a child with a gastrostomy in school
- Describe the necessary safety considerations for a child with a gastrostomy in a school setting
- Demonstrate the correct technique for feeding via a gastrostomy tube
- Appreciate the psychosocial issues for the child and family

**Target Audience:** Teaching Staff (including; Teachers, Special Needs Assistants) working in primary school settings and responsible for the care of a child with a gastrostomy in school.

**Programme Coordinators:** Registered Nurse Tutor, CCNE

**Facilitators:** Clinical Nurse Specialists (Enteral Feeding, Gastrostomy)

**Number of Places:** 30

**Enquiries:** [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

**To Book a Place:** Email [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie) stating:

- Programme of interest
- Name and address of school
- Job title
- Contact details (email & phone)

## Epilepsy Awareness Sessions for School Staff

### Aim of the Programme:

To provide participants with the opportunity to acquire the specific knowledge, skills and attitudes required to safely and efficiently care for a child with epilepsy in a school setting.

### Learning Outcomes:

On completion of the session the participant should be able to:

- Describe what an epileptic seizure is
- Identify the common seizure triggers
- Understand the importance of recording a seizure accurately
- Describe the actions to be taken when a child has an epileptic seizure in a school setting
- Demonstrate how to administer rescue medication

**Target Audience:** School Staff (including Teachers, Special Needs Assistants, School Nurses)

**Programme Coordinators:** Registered Nurse Tutor, CCNE

**Facilitators:** Clinical Nurse Specialists (Neurology/Epilepsy)

**Number of Places:** 35

**Enquiries:** [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

**To Book a Place:** Email [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie) stating:

- Programme of interest
- Name and address of school
- Job title
- Contact details (email & phone)

**Caring for a Child with a Tracheostomy in the school setting**  
**A programme for school staff (Venue: Children's Health Ireland)**

**Aim of the Programme:**

To provide the participants with the opportunity to acquire the specific knowledge, skills and attitudes required to safely and effectively care for a child with a tracheostomy in the school setting.

**Learning Outcomes:**

On completion of the programme, the participant should be able to:

- Outline the indications for tracheostomy in children
- Discuss the communication techniques for a child with a tracheostomy
- Describe the necessary safety considerations for a child with a tracheostomy in a school setting
- Describe the adaptations to basic life support for a child with a tracheostomy
- Demonstrate how to deliver humidification on a manikin
- Demonstrate the correct suctioning technique on a manikin
- Demonstrate the correct technique for an emergency tracheostomy tube change on a manikin
- Appreciate the psychosocial issues for the child and family

**Target Audience:** Staff (including; Teachers, Special Needs Assistants, School Nurses) working in a school setting.

**Programme Coordinators:** Registered Nurse Tutor, CCNE

**Facilitators:** Clinical Nurse Specialists (Airway Management)

**Number of Places:** 24

**Enquiries:** [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie)

**To Book a Place:** Email [admin.ccne@childrenshealthireland.ie](mailto:admin.ccne@childrenshealthireland.ie) stating:

- Programme of interest
- Name and address of school
- Job title
- Contact details (email & phone)

## **8. Appendices**

## **Appendix 1 - Acknowledgements (in alphabetical order)**

The CCNE wishes to acknowledge the support and assistance from:

- Administrative Staff in the CCNE
- CCNE Board of Management
- CCNE Education Sub-Committee
- Centres of Nursing and Midwifery Education (CNMEs) nationally
- Clinical Placement Coordinators (CPCs) and Clinical Coordinators (HDNS)
- Clinical Staff both locally and nationally- (Clinical Nurse Education Facilitators, Clinical Nurse Managers, Clinical Nurse Specialists, Advanced Nurse Practitioners, Staff Nurses, IV and Phlebotomy Teams)
- Director and Staff of Nursing and Midwifery Planning Development Unit
- Dublin City University (DCU)
- Irish Hospice Foundation
- IT Staff
- Members of the multi-disciplinary teams
- Nurse Practice Development Units
- Nursing and Midwifery Board of Ireland
- Registered Nurse Tutors, Teaching Staff and Programme Coordinators
- Research Nurses
- Senior Nurse Management, Children's Health Ireland
- University College Dublin (UCD)
